Gustavo Andrés Cevallos Jaramillo

Backend Web Developer · AI Engineer

Madrid, Spain · gandev.com@gmail.com · +34 628 145 888 · gandev.es · gustavo-cev · Gan-dev

PROFESSIONAL PROFILE

Backend Developer with 4+ years of experience building scalable, business-driven web solutions. Specialized in modular architectures with NestJS, PostgreSQL optimization, and AI-powered automation. Focused on delivering real, measurable impact.

EXPERIENCE

Clasing
Sep 2023 – Oct 2025

Backend Developer · Madrid, Spain

E-learning · payments · video calls · AI-powered dashboards. Backend for critical operations.

- PostgreSQL reporting optimization through query tuning and data access refactoring.
- RabbitMQ + gateway for wallet transactional flow — reduced errors and improved consistency.
- Full backend for the exercise system: submission, automated grading and explanations.
- Design and implementation of an exercise system tied to FUNDAE, meeting all legal and administrative requirements.
- Support ticket system with ~70% faster resolution (from ~10 min to ~3 min).
- Deployed ARI: AI with real-time conversation analysis + API + n8n workflows.
- Full ownership of project management and technical decision-making.

Projects / Sumaq
Jan 2025 – Present

Backend & Automation + AI Integrations

Mobile app for client management + AI and MCP-powered appointment automation. SaaS-ready architecture for multi-sector use.

- Modular NestJS + PostgreSQL API with multi-tenant design and logical isolation.
- Frontend connected to the API for booking and client management flows using React Native.
- Intelligent scheduling automation: slot proposals and AI-driven workflows.

Projects / SMBs
Jan 2021 – Present

Web Developer · Small & Medium Businesses

Web design for SMBs using Astro + React + Tailwind. AI integration for content generation and SEO optimization.

- Designed attractive and functional web interfaces for SMBs.
- Integrated analytics and SEO tools to improve online visibility.
- Implemented automation solutions to streamline internal processes.
- DevOps and infrastructure management for web projects.

TECHNICAL SKILLS

Backend
